December, 2018 published in the Gazette of India, Extraordinary, Part I, Section 1, dated the 13th December, 2018 has come to the conclusion that:

- (i) imports from China PR continue to command a significant share in the domestic market;
- (ii) there has been continued dumping of the subject goods from China PR and the dumping is likely to continue and increase if the anti-dumping duty is allowed to cease;
- (iii) even when the performance of the domestic industry improved in respect of volume parameters, the domestic industry was not able to improve its market share and was still holding a share much lower than imports. Further, its performance deteriorated in respect of price parameters to such an extent that the domestic industry was suffering financial losses, cash losses and negative return on investment. Growth of the domestic industry is adverse. The domestic industry has suffered continued injury;
